NOTES TO FINANCIAL STATEMENTS

NOTE 1 Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The financial statements of the company are presented on the basis of accounting practices prescribed by the Texas Department of Insurance. The Texas Department of Insurance recognizes only statutory accounting practices prescribed or permitted by the State of Texas for determining and reporting the financial condition and results of operations. The accompanying financials statements have been prepared in conformity with the NAIC Accounting Practices and procedures Manual. While NAIC SAP has been adopted as a component of permitted practices by the state of Texas, the state has adopted certain practices that differ from those found in NAIC SAP. The Commissioner of Insurance has the right to permit specific practices that deviate from prescribed practices.

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. Actual results could differ from those estimates. IBNR ESTIMATES HAVE BEEN UPDATED FOR LOSS DEVELOPMENT FACTORS PER ACTUARIAL INPUT.

C. Accounting Policy

Premiums are earned over the terms of the related insurance policies and reinsurance contracts. Unearned Premium reserves are established to cover the unexpired portion of premiums written. Such reserves are computed by pro-rate methods for direct business.

Expenses incurred in connection with acquiring new insurance business, including such acquisition costs as sales commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

In addition, the company uses the following accounting policies:

- (1) Basis for Short-Term Investments

NOTE 25 Change in Incurred Losses and Loss Adjustment Expenses

A. Change in Incurred Losses and Loss Adjustment Expenses

Reserves for unpaid losses and LAE, net of reinsurance recoverables were \$6.800 million and \$7.220 million at December 31, 2022 and December 31, 2021 respectively. Unpaid losses and LAE are based on claims adjusters' estimates of the cost of settlement plus an estimate for losses incurred but not reported (IBNR) based upon historical experience, industry loss experience and management's estimates which are reviewed by an external actuarial firm. Claim reserves are continually reviewed and modified to reflect changes in status of individual claim costs and severity as new information becomes available. Current year changes in estimates of the costs of prior years loss and loss adjustment expenses (LAE) affect the current year Statement of Income as any resulting adjustments are charged to operations in the period in which they are determined. Increases in those estimates increase current year expense and are referred to as unfavorable development or prior year reserve shortages. Decreases in those estimates decrease current year expenses and are referred to as favorable development or prior year reserve redundancies. Reserves as of December 31, 2021 were \$7.220 million. As of December 31, 2022, \$3.041 million has been paid for incurred losses and loss adjustment expenses attributable to insured events of prior years. Reserves remaining for prior years are now \$2.946 million as a result of re-estimation of unpaid claims and claim adjustment expenses. Therefore, there has been a \$1.233 million favorable prior-year development since December 31, 2021 to December 31, 2022.
