B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of reserves and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

Premiums are earned over the terms of the related insurance policies and reinsurance contracts. Unearned premium reserves are established to cover the unexpired portion of premiums written. Such reserves are computed by pro-rata methods for direct business.

Expenses incurred in connection with acquiring new insurance business, including such acquisition costs as sales commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

In addition, the Company uses the following accounting policies:

- (1) Basis for Short-Term Investments: Short-term investments are carried at cost.
- (2) Basis for Bonds and Amortization Schedule: IBonds not backed by other loans are stated at amortized cost using the scientific method.
- (3) Basis for Common Stocks: Common stocks are carried at market value.
- (4) Basis for Preferred Stocks: The Company does not have any preferred stocks at this time.
- (5) Basis for Mortgage Loans: The Company does not have any mortgage loans at this time.
- (6) Basis for Loan-Backed Securities and Adjustment methodology: Loan-backed securities are stated at amortized cost. The retrospective adjustment method is used to value all securities except for interest only securities which are valued using the prospective method.
- (7) Accounting Policies for Investments in Subsidiaries, Controlled and Affiliated Entities: The Company has no investments in subsidiaries, controlled and affiliated companies.
- (8) Accounting Policies for Investments in Joint Ventures, Partnerships and Limited Liability Entities: The Company has no investment in joint ventures, partnerships or limited liability companies.
- (9) Accounting Policies for Derivatives: The Company has no derivatives.
- (10) Anticipated Investment Income Used in Premium Deficiency Calculation: The Company anticipates investment income as a factor in the premium deficiency calculation, in accordance with SSAP No. 53, Property Casualty Contracts - Premiums.
- (11) Management's Policies and Methodologies for Estimating Liabilities for Losses and Loss/Claim adjustment Expenses:
Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liability are continually reviewed and any adjustments are reflected in the period determined.
- (12) Changes in the Capitalization Policy and Predefined Thresholds from Prior Periods: The Company has not modified its capitalization policy from the prior period.
- (13) Method Used to Estimate Pharmaceutical Rebate Receivables: The Company does not have any pharmaceutical rebate receivables.

NOTE 25 Change in Incurred Losses and Loss Adjustment Expenses

Reserves for unpaid losses and LAE, net of reinsurance recoverables were \$90 thousand and \$98 thousand at March 31, 2023 and December 31, 2022 respectively. Unpaid losses and LAE are based on claims adjusters' estimates of the cost of settlement plus an estimate for losses incurred but not reported (IBNR) based upon historical experience, industry loss experience and management 's estimates which are reviewed by an external actuarial firm. Claim reserves are continually reviewed and modified to reflect changes in status of individual claim costs and severity as new information becomes available. Current year changes in estimates of the cost of prior year loss and loss adjustment expenses (LAE) affect the current year Statement of Income as any resulting adjustments are charged to operations in the period in which they are determined. Increases in those estimates increase current year expense and are referred to as unfavorable development or prior year reserve shortages. Decreases in those estimates decrease current year expenses and are referred to as favorable development or prior year reserve redundancies.

Reserves as of December 31, 2022 were \$98 thousand. As of March 31, 2023, \$49 thousand has been paid for incurred losses and loss adjustment expenses attributable to insured events of prior years. Reserves remaining for prior years are now \$39 thousand as a result of re-estimation of unpaid claims and claim adjustment expenses principally on the homeowners line of business. Therefore, there has been a \$10 thousand favorable prior-year development since December 31, 2022 to March 31, 2023.

The Company has no retrospectively rated policies and no additional premiums or return premiums have been accrued as a result of prior-year effects.
