The financial statements of Roadrunner Indemnity Company are presented on the basis of accounting practices prescribed by the Texas Department of Insurance.

The Texas Department of Insurance recognizes only statutory accounting practices prescribed or permitted by the State of Texas for determining and reporting the financial condition and results or operations of an insurance company, for determining solvency under the Texas Insurance Law. The current effective version of the National Association of Insurance Commissioners' (NAIC) Accounting Practices and Procedures Manual has been adopted as a component of SAP. The Commissioner of Insurance has the right to permit specific practices that deviate from prescribed practices.

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

Premiums are earned over the terms of the related insurance policies and reinsurance contracts. Unearned premium reserves are established to cover the unexpired portion of premiums written. Such reserves are computed by pro-rata methods for direct business.

Expenses incurred in connection with acquiring new insurance business, including such acquisition costs as sales commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

In addition, the Company uses the following accounting policies:

- (1) Basis for Short-Term Investments: Short-term investments are carried at cost.
- (2) Basis for Bonds and Amortization Schedule: Bonds not backed by other loans are stated at amortized cost using the scientific method.
- (3) Basis for Common Stocks: Common stocks are carried at market value.
- (4) Basis for Preferred Stocks: The Company does not have any preferred stocks at this time.
- (5) Basis for Mortgage Loans: The Company does not have any mortgage loans at this time.
- (6) Basis for Loan-Backed Securities and Adjustment methodology: Loan-backed securities are stated at amortized cost. The retrospective adjustment method is used to value all securities except for interest only securities which are valued using the prospective method.
- (7) Accounting Policies for Investments in Subsidiaries, Controlled and Affiliated Entities: The Company has no investments in subsidiaries, controlled and affiliated companies.
- (8) Accounting Policies for Investments in Joint Ventures, Partnerships and Limited Liability Entities: The Company has no investment in joint ventures, partnerships or limited liability companies.
- (9) Accounting Policies for Derivatives: The Company has no derivatives.
- (10) Anticipated Investment Income Used in Premium Deficiency Calculation: The Company anticipates investment income as a factor in the premium deficiency calculation, in accordance with SSAP No. 53, Property Casualty Contracts - Premiums.
- (11) Management's Policies and Methodologies for Estimating Liabilities for Losses and Loss/Claim Adjustment Expenses:

Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liability are continually reviewed and any adjustments are reflected in the period determined.
- (12) Changes in the Capitalization Policy and Predefined Thresholds from Prior Periods: The Company has not modified its capitalization policy from the prior period.
- (13) Method Used to Estimate Pharmaceutical Rebate Receivables: The Company does not have any pharmaceutical rebate receivables.

D. Going Concern

The Company has no substantial doubt about the entity's ability to continue as a going concern.

NOTE 2 Accounting Changes and Corrections of Errors

NOTES TO FINANCIAL STATEMENTS

The Company has no accounting changes and corrections of errors to report.

NOTE 3 Business Combinations and Goodwill

Effective 12/31/2023, Insurors Financial Corp. (IFC) reorganized its three insurance companies. Prior to the reorganization, Insurors Indemnity Company (Company) was the parent of Roadrunner Indemnity Company (Roadrunner). Post reorganization, Company is the parent of Insurors Indemnity Select which is now the parent of Roadrunner. To accomplish this, Select acquired all of the outstanding common stock in Roadrunner via a transfer of such stock by Company. IFC acquired all of the outstanding common stock in Company through a transfer of such stock by Select. NOTE 25 Change in Incurred Losses and Loss Adjustment Expenses

A. Change in Incurred Losses and Loss Adjustment Expenses

Reserves for unpaid losses and LAE, net of reinsurance recoverables were \$33 thousand and \$98 thousand at December 31, 2023 and December 31, 2022 respectively. Unpaid losses and LAE are based on claims adjusters' estimates of the cost of settlement plus an estimate for losses incurred but not reported (IBNR) based upon historical experience, industry loss experience and management's estimates which are reviewed by an external actuarial firm. Claim reserves are continually reviewed and modified to reflect changes in status of individual claim costs and severity as new information becomes available. Current year changes in estimates of the costs of prior year loss and loss adjustment expenses (LAE) affect the current year Statement of Income as any resulting adjustments are charged to operations in the period in which they are determined. Increases in those estimates increase current year expense and are referred to as unfavorable development or prior year reserve shortages. Decreases in those estimates decrease current year expenses and are referred to as favorable development or prior year reserve redundancies. Reserves at December 31, 2022 were \$266 thousand. As of December 31, 2023, \$262 thousand has been paid for incurred losses and loss adjustment expenses attributable to insured events of prior years. Reserves remaining for prior years are now \$29 thousand as a result of re-estimation of unpaid claims and claims adjustments expenses principally on the homeowners line of business.

B. Information about significant changes in methodologies and assumptions used in calculating the liability for unpaid losses and loss adjustment expense. The Company had no significant changes in methodologies and assumptions used in calculating the liability for unpaid losses and loss adjustment expenses.
