Reserves for unpaid losses and LAE, net of reinsurance recoverables were \$8,369,614 at June 30, 2024. Unpaid losses and LAE are based on claims adjusters' estimates of the cost of settlement plus an estimate for losses incurred but not reported (IBNR) based upon historical experience, industry loss experience and management's estimates which are reviewed by an external actuarial firm. Claim reserves are continually reviewed and modified to reflect changes in status of individual claim costs and severity as new information becomes available. Current year changes in estimates of the costs of prior years loss and loss adjustment expenses (LAE) affect the current year Statement of Income as any resulting adjustments are charged to operations in the period in which they are determined. Increases in those estimates increase current year expense and are referred to as unfavorable development or prior year reserve shortages. Decreases in those estimates decrease current year expenses and are referred to as favorable development or prior year reserve redundancies.
